

LOOSEN - ALL

Product of high anticorrosive power. Dissolves all types of rust and loosens the toughest parts. Protects and lubricates all types of mechanisms, preventing the penetration of moisture

USES

This product is recommended when it is required to free parts stuck by oxidation, such as screws, nuts, hinges and others. It is also used as a lubricant for plates, padlocks and precision mechanisms. It can be applied in different types of tools.

PROPERTIES

- High cleaning power: Due to its high penetrating capacity, it slides the layers of grease and impurities (oxides) causing a quick and effective removal and at the same time eliminates squeaks caused by friction, dirt or lack of use.
- Excellent protection: Forms a protective film that lubricates and inhibits the formation of rust and therefore the corrosion of the parts. At the same time it displaces moisture, eliminating arcs and short circuits

HEALTH AND SAFETY

This product does not present a risk to health or safety as long as they maintain good personal and industrial hygiene practices. In case of contact with the skin, wash immediately with soap and water. Wear gloves to handle used oils. Do not dispose of the residue down the sewer. Take care of our environment.
