

MOTOR SPRAYER

Concentrated product that cleans engine surfaces quickly by removing fats, oils and fuels impregnated on engine surfaces. This product is your ideal option when you require a good cleaning without being contaminated with toxic products.

USES

To clean ferrous surfaces, stainless steel, aluminum, plastics and all types of material with impregnated grease. Removes all types of greases impregnated on the surface of the engine of cars, aircraft, machines and painted or unpainted equipment. It is not necessary to wear a protective mask. It can even be used to eliminate other types of greases.

PROPERTIES

- Environmental preservative, since its formula does not contain chemical ingredients that can cause damage to the environment.
- It does not produce irritation to the skin or the eyes, unlike most highly toxic degreasers for man.
- Effective degreasing power.
- It does not contain solvents, it is not flammable.
- Does not damage painted surfaces, rubber and engine gaskets.
- It is not corrosive or abrasive.

- It is biodegradable.

HEALTH AND SAFETY

This product does not present health or safety risks as long as good personal and industrial hygiene practices are maintained. In case of contact with the eyes, rinse immediately with plenty of water. Do not spray this product on plants. **KEEP OUT OF THE REACH OF CHILDREN**
